We've teamed up with the Art Fund to launch Art Happens, a brand-new crowdfunding platform that allows museum and art lovers to become philanthropists and receive brilliant rewards in return.

We're one of 5 hand-picked projects that are kicking things off with a total redesign of the Museum of The Gorge. The gallery and auditorium in the gothic 1832 building that houses the museum will be completely transformed. We want to create a dynamic space for museum and community events at the heart of the World Heritage Site.

The newly refurbished museum will narrate the story of how the river, roads, railways and canals came together to make the Gorge a vibrant hub of industry from the 1600s right up to the 1950s.
